

Tim Chebunin, product designer

Result-oriented and data-driven product designer with 3+ years of experience in digital product design. I build products from concepts to implementation, also bringing to the table my experience in marketing, development, and product management.

Portfolio: timchebunin.com

Professional experience

Nov, 2018 — Present

Experience Designer at EPAM Systems

I've redesigned a web-based b2b product for a multi-national mass-media corporation, helped a smart city startup to design apps for IoT devices, worked on many small projects. As part of a team, I've built from scratch [EPAM Anywhere](#).

EPAM is the largest consulting and custom software agency in Belarus, with 35k+ engineers across the globe. See epam.com.

May, 2018 — Nov, 2018

Freelance Experience Designer

I've designed websites and apps for small and medium-sized businesses from Belarus. During this time I've also built my product for product managers — [prodcalc.app](#). As a part of self-discovery, I worked for a month as a product manager myself.

I worked as a PM for a small company called Big Data Technologies. See bdtech.by.

Apr, 2014 — May, 2018

Marketing Designer and Content Strategist at Itransition

I've worked on corporate websites, case studies, presentations, brochures, etc. I've also helped to improve inner business processes and guidelines, built products for marketing and sales departments, performed design training and supervision for copywriters, sales, and marketing managers.

Itransition is an IT outsourcing company. See itransition.com
